# Export_Chrome_extensions

## Step 1 : Add the ADB extension into Chrome

- AdGuard

Step 2 : Chrome extension

## Step 3 : Open developer mode and get the extension file name

Step 4 : Find the local path of extensions

C:\Users***xxx***\AppData\Local\Google\Chrome\User Data\Default\Extensions\

- ***xxx*** : Your username

You will find the folder that the name is same as AdGuard ID.

Step 5 : Pack the extension

C:\Users***xxx***\AppData\Local\Google\Chrome\User Data\Default\Extensions***yyy******version***

- ***xxx*** : Your username
- ***yyy*** : AdGuard ID
- ***version*** : Extension version. E.g. 4.3.31_0

And press the ***Pack extension***

Step 6 : Get the extension be packed

C:\Users***xxx***\AppData\Local\Google\Chrome\User Data\Default\Extensions***yyy***\

- ***xxx*** : Your username
- ***yyy*** : [AdGuard ID](#)

You will find the ***crx*** file at the path.
